### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### Status

- 1) ☒ Responsive to communication(s) filed on 03 August 2007.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

### Disposition of Claims

### DETAILED ACTION

Applicants' response and amendment, filed 8/3/2007, is acknowledged. Claims 1, 5 – 10, 12 – 15, and 17 – 24 are pending. Claims 18 – 24 are withdrawn from consideration, and claims 1, 5 – 10, 12 – 15 and 17 are pending in this action.

#### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1, 5 – 10, 12 – 15 and 17 **remain** rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. **This rejection is maintained for reasons of record and those discussed below.**

#### ***Response to Arguments***

Applicants' arguments have been fully considered, but they are not persuasive. Applicants argue that the claim amendment is sufficient to overcome this rejection in view of the experiments referenced in Applicants' arguments. In response it is first noted that the experiments referenced in the arguments are not in fact "empirical evidence" as Applicants aver. Evidence traversing a rejection is entered in the form of a declaration under 37 CFR 1.132, Applicants' have provided only arguments. Arguments are not a substitute for evidence on the record. It is noted that even if the experiments

Art Unit: 1615

referred to in the arguments were presented in the form of a signed declaration under 37 CFR 1.132, it is not certain whether or not this would be sufficient to overcome the rejection, because the showing in the experiments discussed in the arguments is not commensurate with the scope of the claims. That is, the experiments referred to do not appear to be representative of the full range of amounts of each material that may be present in the claimed composition. In view of the strong evidence of record that a composition with the claimed about 15% ACULYN-44 (polyethylene glycol-150/decyl alcohol/saturated dicyclohexy-methane diisocyanate copolymer) would be expected to give a composition with a much higher viscosity than that of the claims, a successful declaration would show data representative of the entire ranges of claimed ingredients.

### ***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
